DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Allowable Subject Matter

Claims 1-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: Although Bosshart (US PAT No 6,791,365) teaches a dynamic logic circuit using transistors having differing threshold voltages and delayed low threshold voltage leakage protection, one of ordinary skill in the art would not have been motivated to modify the teaching of Bosshart to further includes, among other things, the specific of latching logic, responsive to the clock and complete signals and the state of the pre-charged node, that controls the state of an output node based on the state of the pre-charged node during an evaluation period between an operative edge of the clock signal and the next edge of the complete signal and that otherwise presents a tri-state condition to the output node as required by claim 1 or during an evaluation period beginning when the clock signal goes high and ending when the inverted delayed clock signal next goes low

and that otherwise presents a tri-state condition to the output node as required by claims 6, 11, and during an evaluation period beginning when the clock transition s to the second logic state and ending with the next corresponding transition of the delayed inverted clock signal and maintaining the logic state of the output node between evaluation periods as required by claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
